Measure	Erie County	Monroe County	Buffalo	Northtowns	Eastern Suburbs	Southtowns	Northeastern and Southern Rural
Geography							
Property Crime Rate	273.9 (-0.04)	277.4 (-0.06)	494.6 (-0.06)	175.6 (-0.01)	243.7 (0.00)	191.0 (0.02)	101.5 (-0.07)
Violent Crime Rate	43.9 (-0.03)	34.3 (-0.01)	121.8 (-0.03)	12.5 (0.02)	14.7 (0.02)	14.2 (-0.07)	9.4 (-0.12)
Juvenile Crime	12.8 (1.00)	23.3 (-0.21)	17.4 (0.35)	8.2 (1.24)	21.6 (5.97)	7.8 (1.55)	2.9 (1.64)
Trauma Death Rate	4.7 (0.02)	4.8 (0.02)	6.3 (0.06)	3.8 (-0.06)	4.6 (0.07)	4.1 (0.07)	3.9 (0.04)
Adolescent Pregnancy Rate	350.9 (-0.11)	353.8 (-0.16)	750.3 (-0.09)	118.3 (-0.10)	201.1 (-0.15)	185.9 (-0.19)	129.1 (-0.30)
Absent Rate	6.8 (-0.02)	6.2 (0.01)	12.6 (-0.03)	4.6 (-0.02)	4.8 (0.01)	4.9 (-0.02)	4.6 (-0.03)
Graduation Rate	87.5 (-0.03)	79.9 (-0.04)	68.8 (-0.07)	93.0 (-0.01)	92.4 (-0.03)	92.8 (-0.02)	93.6 (-0.01)
Grade 8 English Rate	60.3 (0.07)	63.7 (0.09)	83.1 (0.02)	46.7 (0.09)	57.6 (0.09)	50.4 (0.09)	56.4 (0.09)
30 Day Alcohol Use	33.1%	28%	31.1%	33.9%	31.3%	31.4%	38.9%
30 Day Marijuana Use	17.4%	22%	21.6%	16.8%	13.6%	13.1%	24.3%

*Rates of change in parentheses below averages

Erie County Prevention Planning Impact Assessment Dashboard Guide

About

•   The Erie County Prevention Planning Impact Assessment Dashboard summarizes outcome indicators for Erie County as well as for the five sub-county regions

•   Current values for outcome indicators are presented along with four year trend data, both of which are color coded to represent improving or worsening trend. Reds/oranges indicate a worsening in an indicator, while greens/blues indicate an improvement.

•   The data also have accompanying comparison values and trends, all of which come from Monroe County, NY (save the 30-day uses for alcohol and marijuana), against which to evaluate these outcomes, all of which are color coded in a similar manner.

How to Use and Interpret the Dashboard

•   All cell values represent averages since 2011. Trends lines over that time period (representing year-on-year rates of change that best fit the data) are presented in parentheses and correspond to the cell color.

•   The first column contains the outcome indicator measures along with the description of the denominator (e.g. crimes/10,000 population)

•   The second column presents the assessment of Erie County values, while the third column presents the assessment of Monroe County.

•   The remaining five columns show the values and trends for individual Sub County Planning Areas.

•   The second row contains the geography of the analysis area.
